

FRITS DIJCKS

Topp & Dubio is a conceptual multidisciplinary artist duo based in The Hague. Topp & Dubio study and scrutinize reality from a conceptual starting point, often arising from a desire to explore parallel worlds. Most of their work originates in response to given situations or opportunities. Their projects flawlessly deal with fact and fiction, the search for meaning, the interaction of art and daily life, the personal and the public, observation and participation, the accidental and the incidental, the romance of imagination and subjective realities. Topp & Dubio do public interventions, video, site-specific installations, audience-interaction, books and all sorts of (audiovisual) documentation. Topp & Dubio works are temporary by nature, are never replicated and only subsist in memory and documentation.
