

SOPHIA BULGAKOVA

Sophia Bulgakova (born 1997, Odessa, Ukraine) is an ArtScientist and interdisciplinary artist currently based in The Hague, the Netherlands. Sophia is working on the intersection between art, technology, and society, focusing on the relationship between light, perception, and imagination. Through various sensorial inputs in her installations and performances, she engages viewers, impacting their ways of perceiving reality and exploring new possibilities beyond it. Sophia studied sculpture in Kyiv and then got a foundation diploma in Photography and Time-Based Media at the University of the Arts London in the UK. After that, she graduated from the ArtScience Interfaculty at the Royal Academy of the Art and Royal Conservatory in The Hague, the Netherlands. Her works were exhibited at CTM Festival (DE), Sonic Acts Festival (NL), Baltan Laboratories (NL), Mediamatic (NL), and Ningbo City Exhibition Hall (CN), among other places.
