

MARIA CHIARA ZIOSI

Maria Chiara Ziosi explores nostalgia and bittersweetness through diverse media, focusing on small gestures and overlooked moments. With fragmented storytelling and layered imagery, she creates open-ended scenes where joy and sadness coexist, revealing subtle social and emotional dynamics. Along with her practice, she is working on a music project as Sigh Nova.

	aperti" ("dreaming with open eyes"). The exhibition moves between street scenes and domestic interiors, in both cases suggesting the act of wandering. Daydreaming here is not retreat, but exposure: eyes as fireflies, lanterns in dark fields or lighthouses blinking through storms, guiding us not to find our way, but to stop fearing being lost. www.thecrookedstudio.nl/home Solo	2022	Unpae Roccacaramanico, Italië Residency www.unpae.com

"Residential Aliens" is a collectively
produced artwork by members of the
artist-run space Trixie in The Hague.
For the first time since its
establishment five years ago, its
members came together to
collaboratively develop a work. Allowing
the collective to reflect back on the
past, while allowing it simultaneously to

look into a collective future – what will be its future? This was translated by the collective into a “patchwork”. A patterned network of relationships constitutes a coherent whole that exists between individuals, groups, and institutions. It is the formal structure of role and status that can form in a small, stable group. In essence a necessary precondition for working and living collectively. u10.rs/2023/residential-aliens/

2023 Common Ground Home Gallery Den Haag, Nederland Common Ground was a site specific installation in which Maria Chiara's wall-drawings and Alexander's sculpture were staying in this space until the whole building block is being demolished. That is, in the sense that Maria Chiara's work was painted over and Alexander's work found its way back to its origin as integral part of the wooden floor of the Home Gallery.
