## MICHAL KUCHARSKI

### Artist Statement

Michał Kucharski (born in 1997 in Krakow, Poland) is a visual artist based in Den Haag, Netherlands, working primarily with videography and photography. With his work, he explores human relations and social behaviors, in a staged and directed context. Working with people is an essential part of this process, where he questions the established boundaries in daily life. His projects often involve actors but also people met in public spaces. By creating narratives and scenarios, he achieves an intimate exploration of emotions, beliefs, and norms. His installations typically result in multi-channel audiovisual works that create immersive environments, hinting at darkness and challenging notions of reality and fiction.

|      | <p>and crossovers. Focussing on video art, installations and performances, The New Current translates complex works of art into a unique experience. Everything is carefully coordinated – from the works to the atmosphere and the catering. The performance programme contributes to an enhanced experience, allowing for a cross-pollination between different artistic disciplines, while reaching new audiences. To increase the impact of participation, there is a development program prior to the event which supports artists in the transition from the academy to the professional field. The development program extends beyond the participating exhibitors and is openly accessible for interested artists and makers.</p> <p><a href="http://www.thenewcurrent.org">www.thenewcurrent.org</a><br/>Groep</p> | <p>experienced. Through staged scenes and conversations with locals, he creates an idealized portrait of boyhood in his old neighborhood.</p> |
